My Plans

The My Plans section helps you manage your plan in many different ways. But mostly, it's about helping you save on health care.

Find a doctor or specialist:

Personalized search results make it easy to find the right doctor for you. Search by name, specialty, procedure, location and other criteria.

Network information: Find a nearby doctor for a checkup, procedure or immediate care, and easily view cost estimates for a variety of health-related services.

Quality of care: Quality distinctions and cost-efficiency ratings for doctors appear with every search result, with quality-designated doctors appearing at the top of your list.

Together, all the way.®

My Health

The My Health section on myCigna is all about helping you create health and wellness goals, reaching them and keeping the momentum going. Some of our most helpful tools and features include:

New gamelike health assessment: Identifying your health goals has never been simpler or more fun.

▶ The health assessment is an easy online confidential questionnaire about your health and well-being. It takes about 15 to 30 minutes to complete. The health assessment helps you save on future health costs by making you aware of your risk of more serious illnesses and the costs they bring.

▶ Accessing the health assessment is easy.

1. Log in or register on **myCigna.com**
2. Click on the My Health tab at the top of the page
3. Select My Health Assessment
4. On the next page, click Take My Health Assessment
